OF ENCLS. 1 (4 pages) 25X1A **ACQUIRED** (LISTED BELOW) DATE OF SUPPLEMENT TO INFO. 25X1X REPORT NO. A copy was obtained of directive R 6212/0000/Abr./Wd sent on 11 September 1950 by the DDM's Limistry of Finance, Lain Department Prices, at 5 to 10 Unterwasserstrasse in Berlin. This directive on the planning of 1951 prices was sent to all VVB's of chemical plants. * 25X1A, Comment. For carbon copy and translation of this directive see Annex. In this directive, Innerdeutscher Mandel (internal German trade) is c cuphonistic term for trade between the Soviet Some and the Western Somes of Germany. Sections II and IV of this directive are neteworthy in that they provide for the absolute stability of prices and for the gradual replacement of relates by a uniform factory price. The neasure, by putting all customers on a par, will eliminate the preferential treatment customarily given to the finishing processing industries and to the wholesale trade. The tendency to adjust to the commercial principles of the Soviet economy is obvious. The price arrangement initiated by this order will in future also make price subsidies unnecessary. As world market prices have increased considerably the compulsory quotation and price stabilization order presumably airs at making competition possible without ranting price discounts or export subsidies.
